

My favorite and only radio station K-LOVE (106.7) will be adversely affected if you allow these LPFM stations to take priority over current translator service. K-Love is very family friendly. It has a positive and encouraging effect on our community. There will be no radio station for our family to listen to in the car if you allow this. We will have to resort to CD's. Please save our beloved K-love station here in NC and across the US. Our teenagers & young people desperately need this type of positive, uplifting, encouraging music on a 24/7 basis.
